Devoted HEALTH PLANS

What is a C-SNP?

Chronic condition Special Needs Plans (C-SNPs) are a type of Medicare Advantage plan that's only for people with certain health conditions. If you have diabetes or certain cardiovascular blood flow problems), you may qualify to join a Devoted Health C-SNP.

What do I need to do to qualify for a C-SNP?

1. **When you apply:** Fill out the first 3 pages of this form and return them with your plan application.
2. **Within 2 months of your plan start date:** Have your doctor fill out and sign the last page of this form and send it back to us.

This a text callout

Have your doctor fill out the last page of this form as soon as possible.
Here's why it's so important to start this process right away:

- **It's the only way to stay enrolled in your C-SNP.**
  If we don't get a completed, signed last page within the first 2 months after your plan starts, we'll have to disenroll you from the C-SNP and you'll need to join a new plan.
- **It may help qualify you for the Food & Home Card (if your plan has this benefit).**
  Not all C-SNPs have a Food & Home Card benefit — but if yours does, having your doctor fill out the form can help us check if you qualify. Learn more at **devoted.com/food-and-home**.

The Food & Home Card is a special supplemental benefit offered on certain plans, and available only to chronically ill members with conditions like diabetes, chronic heart failure, cardiac arrhythmias, coronary artery disease, or peripheral vascular disease; qualifying conditions vary by plan. All applicable plan coverage criteria must be met and other conditions are eligible. Not all members qualify. Devoted Health is an HMO and/or PPO plan with a Medicare contract. Our D-SNPs also have contracts with State Medicaid programs. Enrollment in our plans depends on contract renewal.
